Ponomarenko, A. P.
UTILIZATION OF STEAM COMPRESSORS IN THE EVAPORATING SYSTEM. [1963] 8p. (figs. omitted).
Order from OTS or SLA $1.10 63-16364

Trans. of Sakharnaya Prom[yshlennost'] (USSR) 1954, v. 28, no. 3, p. 11-14.

DESCRIPTORS: *Steam, *Compressors, *Evaporators, Refineries, *Carbohydrates.

Use of steam compressors is effective in all cases, when vapor from last effect goes into the condenser. Due to the work of compressors, the consumption of steam used for the concentration of juice and sirups is saved at the same or increased density. Use of steam compressors increases rate of vapor production which improves performance of the evaporators. Use of compressors in the absence of reserved heat transfer capacity of first evaporator body permits the increase (Food, TT, v. 10, no. 8) (over)

63-16364
